

Hiroshima Dreamination 2014

from the 17th of November until the 3rd of January
along Peace Boulevard (5:30pm-10:30pm).

The Hiroshima Dreamination is a major event enjoyed by people of all ages. “Dreamination” is a Hiroshima-coined term which was created to capture the dreams of the Hiroshima people that come alight during the Christmas and New Year period, and the illumination display held each year from late November to early January.

Peace Boulevard, a major road running east to west through downtown Hiroshima, is illuminated by approximately 1.4 million light bulbs.

There are more than 400 monuments lit up along both sides of the road.

These include a 25 meter tall tree, a light garden and the beautifully redesigned castle of peace, which is the main feature of the event.

The monuments are organized into 14 different sections, each of which forms a part of Fairytale Land
